Head Coach César Cabral

Bio Born in the Azores Islands in Portugal, soccer is in my blood. Moving to America in high school was a big change and soccer was the one place I was still at home.

I started a family very early and my priorities shifted. Soccer has always been my passion and the only thing that has brought me more joy than playing, has been coaching my sons.

I've been coaching for 10 years and learning all that I can.

Last year I became a Grade 8 Certified Referee and I am thoroughly enjoying this new perspective of the game.

Over the years I have been to numerous clinics around the country and even in Manchester, England. I will always be a student of the game.

Coaching Philosophy My philosophy comes down to developing players who can think on their feet. Developing them as individuals and members of the team. The best players are creative.
